2 Investment Linked Funds

- 1 We will maintain a number of investment-linked Funds in order to determine the benefits under this Policy and certain other policies issued by us from time to time. Our liability under the policy lies only to you and is limited to the extent of the unit value of your policy less any charges due to us plus any death benefits that may be payable. We are not liable to meet the scheme's financial obligations to the members of the scheme.
- 2 Each Fund is divided into units. In any investment-linked Fund, units of any particular type shall be of equal value. You will not hold the units directly and the assets of each Fund will belong to us.
- 3 We decide what assets the Funds invest in.
- 4 We may close, withdraw, modify, split or combine Funds or introduce new Funds. 'Withdraw' means no further payments will be accepted into the Fund, any existing units held in the Fund will continue to be allocated. 'Close' means we will encash all the units, which exist for a Fund and terminate the Fund.

Where we close or withdraw a Fund, we will notify you three months in advance that, we will switch any existing units in that Fund and / or apply any future Premiums which would have been applied to that Fund to another Fund that has, in our opinion, the closest investment objectives to the original Fund. During the three month notice period, you can switch to any other available Fund in terms of Provision 9 (Fund Switches). Any charges, which are normally deducted for a switch of Funds, as outlined in Provision 9 (Fund Switches) will not be deducted in these circumstances.

- 5 We will not allocate units in any investment-linked Fund unless assets equivalent to those units are added at the same time to the Fund. We will also not withdraw assets from any such Fund (except to meet the deductions described in section (7) of this Provision) unless units equivalent to those assets are cancelled at the same time. Units will only be cancelled in any such Fund under the terms of Provisions 8, 9, 11, 14 or 15, and assets equivalent to the cancelled units will be withdrawn from the same Fund at the same time.
- 6 We will add the income from the assets of an investment-linked Fund to that Fund.
- 7 We can deduct from the assets of an investment-linked Fund any amounts that we decide are appropriate to cover:
 - (a) expenses, taxes and statutory duties due to the buying and selling of assets;
 - (b) part or all of any tax, statutory levy or other statutory / regulatory charge on us allocated to the Fund; and
 - (c) the management charges described in Provision 4 (Fund Management Charges).
- 8 Units invested in any of our investment-linked Funds do not participate in the profits of the HDFC Standard Life Insurance Company Limited or any of its participating Funds.

3 Valuation of Investment Linked Funds

- 1 At such intervals as we may decide, but usually each day the financial markets are open, we will value each investment linked Fund so that we can set the prices of units as specified in Provision 5 (Unit Prices).
- 2 The maximum and minimum values of a Fund are based on the maximum and minimum values of assets in that Fund, allowing for any cash that has not been invested, an estimate of income earned but not received, an estimate of charges incurred but not yet paid, allowance for future deductions of the types described in Provision 2 section 7, allowance for investment transactions made but not yet settled and allowing for the expenses of purchasing or selling assets.
- 3 The maximum value of an asset will not be greater than the market price at which it could be bought allowing for the expenses of buying assets.
- 4 The minimum value of an asset will not be less than the market price at which it could be sold allowing for the expenses of selling assets.
- 5 The value of quoted securities (such as stocks and shares) will normally be based on Indian market practice of market or fair value in accordance with regulations/guidelines/directives from the Insurance Regulatory and Development Authority (IRDA) or any applicable regulator. The investments in buildings and land will be based on valuations prepared and certified by independent valuers appointed by us and adjusted to take account of changes in prices, where material, since the last valuations. We will determine the values of all other assets.
- 6 We will always make best endeavour to value the assets on each day the financial markets are open. In certain extreme circumstances, this may not be possible, as the value of assets may be too uncertain. In such circumstances we may defer the valuation of assets until normality returns. Examples of such circumstances are:
 - (a) When one or more stock exchanges, which provide a basis for valuation for a substantial portion of the assets of the Fund, are closed other than for ordinary holidays.
 - (b) When, as a result of political, economic, monetary or any circumstances out of our control, the disposal of the assets of the unit Fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining unit holders.
 - (c) During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing unit holders of the Fund.
 - (d) In the case of natural calamities, strikes, war, civil unrest, riots and 'bandhs'.
 - (e) In the event of any force majeure or disaster that affects our normal functioning.
 - (f) If so directed by the Insurance Regulatory and Development Authority or any applicable regulator.

4 Fund Management Charges on Investment Linked Funds

We will take the appropriate Fund Management Charge as specified in the Policy Schedule, from the Funds. This Charge will be taken on a daily basis and incorporated into the Unit Prices for each Fund. This charge is subject to change at any time at our sole discretion, and may differ by Fund. This charge will not be changed without prior approval from the Insurance Regulatory and Development Authority.

5 Unit Prices

1 Once we have calculated the value of the assets in the Fund at the valuation time as specified in provision 3 (Valuation of Investment Linked Funds), we will set the unit price for use on that day by dividing the value of the assets in the Fund by the number of units in existence for the Fund. The resulting price will be rounded to the nearest Rs. 0.0001. This price will be published on our company's website.

2 For the purposes of Provision 6 (Premiums), if we receive your Premium and all necessary documentation to allow the Premium to be processed, and we are satisfied that the information received is correct, before the Cut-off time for the next Valuation then we will use the unit prices set at the next Valuation to allocate your Premium. If we receive your Premium and all necessary documentation to allow the Premium to be processed, and we are satisfied that the information received is correct, after the Cut-off time for the next Valuation then we will use the unit prices set at the Valuation after the next one.

Where you instruct us, to apply a Premium on a date in the future, we will action those instructions, as if they arrive at the start of the business day, you instructed us to process the Premium, subject to the Cut-off time rules defined above. If you wish to amend any future dated instructions you may do so until the Cut-off time for that Premium. If amendment instructions are received after the Cut-off time for that Premium they will not be acted upon.

3 For the purposes of Provision 9 (Fund Switches) if you instruct us to switch Funds at the next Valuation and we receive those instructions and all necessary documentation to allow the switch to be processed, before the Cut-off time for the next Valuation, then we will use the unit prices set at the next Valuation to switch your Funds. If we receive those instructions and all necessary documentation to allow the switch to be processed, after the Cut-off time for the next Valuation, then we will use the unit prices set at the Valuation after the next one.

Where you instruct us to switch Funds on a date in the future, we will action those instructions as if they arrive at the start of the business day, you instructed us to process the switch, subject to the Cut-off time rules defined above. If you wish to amend any future dated Fund switch instructions you may do so until the Cut-off time for the switch. If amendment instructions are received after the Cut-off time for the switch they will be treated as a separate switch instruction.

We can delay a switch of Funds in terms of Provision 9, section 5.

- 4 For the purpose of Provision 11 (Charges), the unit prices used to cancel units will be those set on the Valuation on the effective date the charges are deducted from the Policy, or if no such Valuation is made, on the most recent Valuation prior to the effective date.
- 5 For the purpose of Provision 14 (Cash Benefit Payments from the policy) if you instruct us to make a cash benefit payment from the policy at the next Valuation, and we receive those instructions to make a cash benefit payment from the policy, and all necessary documentation to allow the cash benefit payment to be processed, before the Cut-off time for the next Valuation then we will use the unit prices set at the next Valuation to redeem units from your policy. If we receive those instructions and all necessary documentation to allow the cash benefit payment to be processed, after the Cut-off time for the next Valuation then we will use the unit prices set at the Valuation after the next one.

Where you instruct us to make cash benefit payment from the policy, at a date in the future we will action your instructions as if they arrive at the start of the business day you instructed us to process the cash benefit payment, subject to the Cut-off time rules defined above. If you wish to amend any future dated cash benefit payment instructions you may do so, until the cut off time for that cash benefit payment. If amendment instructions are received after the Cut-off time for that cash benefit payment, they will not be acted upon.

- 6 For the purpose of Provision 10 (Additional Benefit for Large Schemes): the prices of units used to add units will be those set on the Valuation on the effective date of the addition, or if no such Valuation is made, on the most recent Valuation prior to the effective date.
- 7 Cut-off times and valuation times may vary over time and by Fund. Details of our current practices are shown in the Policy Schedule and any changes are available on request.

6 Premiums

- 1 Premiums can be paid into the policy by you, the policyholder. Premiums can be paid by any method agreed by us.
- 2 On your request, if agreed by us, separate Accounts may be maintained into which Premiums may be paid and from which redemptions may be made.
- 3 If you have chosen more than one Account, we will split the Premium between Accounts in accordance with your instructions. A proportion of each Account's Premium, the premium allocated, will be used to buy units for that Account in the Fund(s) of your choice. The Premium Allocation Rate for all Premiums is on your Policy Schedule.
- 4 The policy will not come into force until the first Premium is accepted by us.
- 5 You will agree with us when Premiums are expected to be paid to allow us to efficiently administer the policy. The Policy Schedule will show the dates Premiums are expected to be paid. Top-up Premiums can be paid at any time. If Premiums are not paid, the existing Funds will continue to be used to meet the charges due on the policy. There is a grace period for paying the premiums of 15 days.
- 6 All payments will be accepted subject to realisation of funds. We will not make cash benefit payment from the policy, as described in Provision 14 (Cash Benefit Payments from the policy) in respect of a Premium until the funds in respect of that Premium have been realised by us.

7 Choosing your Investment Linked Funds

- 1 Initially your Premium will be used to allocate units in the Funds chosen by you in the Application Form.
- 2 At any time, you can ask for some or all of your future Premiums for an Account to be allocated to units in different Funds. Premiums will only be applied as per the revised instructions if we accept those instructions before the Cut-off time for that Premium. We will only act on those instructions to change the Fund choice for future Premiums when we have all necessary information to allow the change of Fund choice to be processed and we are satisfied that the information received is correct.
- 3 If written instructions have not been received as to which Account or which Fund a Premium should be invested in then the Premium will not be invested until such time as the instructions are received. The Premium will then be allocated using the unit price applicable after the next Cut-off time.
- 4 The charge for a Premium redirection request for each Account is specified in the Policy Schedule and is subject to our review at any time.

3. The amount of additional units to be given will be calculated in the following manner. The Fund Value on the last working day prior to the Date of Addition is determined.

The amount of additional units to be given will depend on the total number of Accounts held on the Date of Addition.

Based on the above Fund Value and the number of Accounts , the percentage to be added is determined, which is expressed as a percentage of the value of the Funds held under this Policy, on the last working day prior to the Date of Addition. The percentage is as specified in the Policy Schedule. This percentage will be applied to each Fund in each Account of this Policy to determine the number of additional units for each Fund in each Account of this Policy.

4. If a scheme terminates at your request, in line with Provision 15 (Discontinuance of the Policy), before the policy anniversary and before additional units for the additional benefits for large schemes are added, no additional units will be given to the scheme for part of the year.
