APPENDIX TO THE POLICY SCHEDULE
Unit Linked Guidelines
Effective Date: 01/09/2005

Unit Linked Guidelines

On 21 December 2005, the Insurance Regulatory and Development Authority issued Guidelines for Unit Linked Life Insurance Products via Circular 032/IRDA/Actl/Dec-2005. Our Unit Linked Products conform to these Guidelines and subsequent clarifications and modifications to these guidelines under circulars 010/IRDA/Actl/May-2006 and 008/IRDA/Actl/ULIP_G/May-2007. Where the Standard Policy Provisions refer to the Unit Linked Guidelines, we have extracted the relevant sections (*in italics*), with the numbering as in the guidelines.

Minimum Sum Assured

Our HDFC Unit Linked YoungStar Plus II product only allows Sums Assured, Annual Premiums and Policy Terms that conform to the Unit Linked Guidelines. The relevant sections from the Guidelines are extracted below.

1. Benefit payable on death:

1.1. The table 1.2 below specifies the minimum sum assured in respect of death benefit under unit linked life insurance contracts where:

- 1.1.1 T is the Policy Term (PT) chosen by the policyholder (T shall be taken as 70 minus the age at entry in case of Whole Life Products).*
- 1.1.2 AP is the Annualized Premium selected by the policyholder at the inception of the policy.*
- 1.1.3 SP is the Single Premium chosen by the policyholder at the inception of the policy*

1.2 The minimum sum assured shall be at least equal to:

Table: 1.2

<u>Type of products</u>	<u>Minimum Sum Assured</u>
<i>Single Premium Products</i>	<i>125% of the SP</i>
<i>Non-Single Premium Products</i>	<i>0.5 x T x AP or 5 x AP, whichever is higher</i>

*1.2.1 In respect of products under pension and annuity business **Table 1.2** is not mandatory*

Single Premium Top-Ups

The Unit Linked Guidelines place a restriction on the amount of Single Premium Top-Up which can be paid without increasing the Sum Assured. Since our HDFC Unit Linked YoungStar Plus II Product does not allow the Sum Assured to be increased during the term of the Policy, this places a restriction on the amount of Top-Up which can be accepted. The relevant section from the Guidelines is extracted below.

7.3 At any point of time during the term of the contract, so long as the total amount of top-up premiums remain within the 25% of the total amount of the basic regular premiums paid up to that date, the top-up premium will not be required to have any insurance cover (as required in Table 1.2 above) and the balance amount of such top-up premium shall have an insurance cover as specified in Table 1.2 (for single premium contracts) above and shall remain constant during the period of the contract. The provisions in this para shall not apply in respect of pensions and annuity business.

Unit pricing and Cut-off time for applicability of Net Asset Value (NAV)

Our current unit pricing and Cut-off time conform to the following extract from the Insurance Regulatory and Development Authority's 'Guidelines for Unit-Linked Life Insurance Products'. These times are subject to change with prior approval from the Insurance Regulatory and Development Authority.

10.2 The unit pricing shall be computed based on whether the company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions i.e. the life insurer shall be required to sell/purchase the assets if unit redemptions/allocations exceed unit allocations/redemptions at the valuation date.

*10.3 The **Appropriation price** shall apply in a situation when the company is required to purchase the assets to allocate the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should put into the fund in respect of each unit it allocates in order to preserve the interests of the existing policyholders.*

*10.4 The **Expropriation price** shall apply in a situation when the company is required to sell assets to redeem the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should take out of the fund in respect of each unit it cancels in order to preserve the interests of the continuing policyholders.*

10.5. Computation of NAV:

*10.5.1 when **Appropriation price is applied:** The NAV of a Unit Linked Life Insurance Product shall be computed as: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any new units are allocated), gives the unit price of the fund under consideration.*

*10.5.2 When **Expropriation price is applied:** The NAV of a Unit Linked Life Insurance Product shall be computed as: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any units are redeemed), gives the unit price of the fund under consideration.*

10.6 Uniform Cut-off timings for applicability of Net Asset Value:

The allotment of units to the policyholder should be done only after the receipt of premium proceeds as stated below:

10.6.1: Allocations (premium allocations, switch in):

10.6.1.1 In respect of premiums/funds switched received up to 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the day on which premium is received shall be applicable.

10.6.1.2 In respect of premiums/funds switched received after 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the next business day shall be applicable.

10.6.1.3 In respect of premiums received with outstation cheques/demand drafts at the place where the premium is received, the closing NAV of the day on which cheques/demand draft is realized shall be applicable.

10.6.2: Redemptions:

10.6.2.1 *In respect of valid applications received (e.g. surrender, maturity claim, switch out etc) up to 3:00 p.m. by the insurer, the same day's closing NAV shall be applicable.*

10.6.2.2 *In respect of valid applications received (e.g. surrender, maturity claim, switch etc) after 3:00 p.m. by the insurer, the closing NAV of the next business day shall be applicable.*

5. Surrendered, Lapsed, Paid-Up Policies

(i) Surrender

a. Surrender in the first three years of the Policy.

A Policy may be surrendered at any time in the first three years of the Policy. On request for surrender, the Life Assured will not be covered for the death benefits and any Extra Health Benefits, as described in Section 3(i) with immediate effect.

The amount payable on surrender will be the Unit Fund Value on surrender less the Surrender Charge as specified in the Schedule of Charges. The Surrender Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. The amount payable will be paid out on the 3rd Policy anniversary. If you die before the surrender payment has been made we will make the surrender payment immediately on receipt of all relevant documents in support of the claim.

Once this payment has been made, the Policy terminates and no further benefits are payable. A Surrendered Policy will not be re-instated under any circumstances.

b. Surrender after the first three years of the Policy.

A Policy may be surrendered at any time after the first three years of the Policy. On request for surrender, the Life Assured will not be covered for the death benefits and any Extra Health Benefits, as described in Section 3(i) with immediate effect.

The amount payable on surrender will be the Unit Fund Value on surrender less the Surrender Charge as specified in the Schedule of Charges. The Surrender Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges.

Upon payment of this benefit, the Policy terminates and no further benefits are payable. A Surrendered Policy will not be re-instated under any circumstances.

(ii) Premium unpaid in the first 3 years of the Policy

- a. If any Premium remains unpaid as described in Provision 4 during the first 3 years of the Policy, the Policy will lapse and be automatically surrendered. A Surrender Charge as specified in the Schedule of Charges will be deducted by cancellation of units. The Surrender Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. On automatic surrender due to a lapse, all benefits other than those described under Provision 5(ii)(c) will be cancelled and Policy servicing will cease.
- b. A Policy automatically surrendered due to a lapse can be revived anytime during the period of 2 years from the date of lapse of the Policy or till the end of 3 years from inception, whichever is later. Revival will be subject to any terms and conditions which we may specify from time to time. These terms will include underwriting approval and payment of all outstanding premiums. A Revival Charge, as specified in the Schedule of Charges, may be levied. The Revival Charge will be deducted by cancellation of units. The Revival Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. On revival, the Unit Fund Value at the date of Lapse and the outstanding premiums will be used to allocate units to the Policy in accordance with Provision 9(xiii).
- c. If a Policy automatically surrendered due to a Lapse is not revived, the Unit Fund Value at the date of lapse less the Surrender Charge as specified in the Schedule of Charges would be paid to the Policy holder at the end of 2 years from the date of lapse or at the end of 3 years from inception whichever is later. If you die before this payment has been made we will make the payment immediately on receipt of all relevant documents in support of the claim.

Once this payment has been made, the Policy terminates, no further benefits are payable and the policy cannot be revived.

iii. Premium unpaid after the first 3 years of the Policy

- a. If any Premium remains unpaid as described in Provision 4 after the first 3 years of the Policy, the Policy will be made Paid-Up. For a Paid-Up Policy the Unit funds will continue to be invested; risk cover will continue; all charges including the mortality charges and the other risk benefit charges will continue to be deducted; and the Policyholder will be entitled to all Policy servicing. Premiums can be paid into a Paid-Up Policy only during the period of 5 years from the due date of the earliest outstanding premium. Any premiums paid into a Paid-Up Policy are used to clear the outstanding premiums in the order of their due dates, the earliest being the first to be cleared. The level of the outstanding premiums will be the same as the premium at the time when the policy was Paid-Up. The premiums paid will be used to allocate units to the Policy in accordance with Provision 9(ii).
- b. A Paid-Up Policy can be revived anytime during the period of 5 years from the due date of the earliest outstanding premium, subject to any

HDFC Standard Life Insurance Company Limited
HDFC Unit Linked YoungStar Plus II

terms and conditions which we may specify from time to time. These terms will include payment of all outstanding regular premiums. The level of the outstanding premiums will be the same as the premium at the time when the policy was Paid-Up. A Revival Charge, as specified in the Schedule of Charges, may be levied. The Revival Charge will be deducted by cancellation of units. The Revival Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. On revival the outstanding premiums will be used to allocate units to the Policy in accordance with the Provision 9(xiii).

- c. If the Paid-Up Policy is not revived within the period of 5 years from the due date of the earliest outstanding premium, there is an option to continue the Policy in a Paid-Up state for the remaining term of the Policy.

The Unit funds will continue to be invested; risk cover will continue; all charges including the mortality charges and the other risk benefit charges will continue to be deducted; and the policyholder will be entitled to all policy servicing. However no further premiums would be accepted into the Policy.

If the above option is not exercised, the Policy will be automatically surrendered. A Surrender Charge as specified in the Schedule of Charges may be deducted by cancellation of units. The amount payable under such a scenario would be the Unit Fund Value less any Surrender Charge as specified in the Schedule of Charges. Upon payment of this benefit, the Policy terminates and no further benefits are payable. A policy so surrendered, will not be re-instated under any circumstances. The Surrender Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. On automatic surrender, the units will be cancelled in accordance with the Provision 9(xv).

Any charges, which are normally deducted for a switch of Funds, as outlined in Provision 14 (

We will also not withdraw assets from any such Fund (except to meet the deductions described in section (viii) of this Provision) unless units equivalent to those assets are cancelled at the same time. Units will only be cancelled in any such Fund under the terms of Provision 14 (

Examples of such circumstances are:
 - When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the Fund are closed other than for ordinary holidays.
